Friday, April 29, 2011

Dear Parents,

It seems that we have pretty busy weeks ahead of us!

Our elementary students, grade 2 to 5, will be taking the **California standardized tests**, from Monday, May 9th through Friday May 13th. Please help us have all students present, rested, and on time during this week. This is greatly appreciated! Homework should be very light during the week of the test. We encourage our students to do some reviews with their parents as no hefty work will be asked by the teachers.

Tests again Our **2nd graders** will be taking the French “évaluations nationales” the following week, from May 16th through May 20th. Again, only very light homework will be asked by our teachers. These tests should not overwhelm our students in any ways. They are age appropriate in content and in length, and are evenly spread all along the week.

This last week of tests will actually be interrupted by a **field trip to the LACMA**, which will give our second graders a nice break! **Kindergarteners, first graders and second graders** will go to school at 9:00 am as usual on Thursday, May 19th, then take the bus at 10:30 am. They will eat outside the LACMA just before the museum opens its doors at 12:00pm. They will participate in activities prepared with their teachers during the afternoon. We should all be back no later than 3:30 pm.

Our **3rd, 4th and 5th graders** will also go **to the LACMA**, following the same schedule, with the same mission, on Thursday, May 26th 2011.

On the Friday, May 27th our **Kindergarteners, 1st graders and 2nd graders** will go see **Seussical the Musical**, at the Oxnard Performing Art Center. The play is about the well-known author of reading methods, Dr. Seuss.

On the same day, our **preschoolers, and pre-kindergarteners** will **visit the Underwood Farm**. Our students will get to visit the farm and collect some veggies too!

And, by the way, our PA is organizing another **movie night** for the Saturday, May 21st. Save the date!

Also, parents have asked us more information on the association with which we are collaborating for our **sustainable development program**. Please, take the time to visit the following website:

I wish you all a wonderful weekend!

Truly,

Stéphane Plancke
